THE WONDERS

Of Science—Lung Troubles and Consumption Can be Cured.

An Eminent New York Chemist and Scientist Makes a Free Offer to Our Readers.

The distinguished New York chemist, T. A. Slocum, demonstrating his discovery of a reliable and absolute cure for Consumption (Pulmonary Tuberculosis) and all bronchial, throat, lung and chest diseases, stubborn coughs, catarrhal affections, general decline and weakness, loss of flesh, and all conditions of wasting away, will send three free bottles (all different) of his New Discoveries to any afflicted reader of the *MT. STERLING ADVOCATE* writing for them.

His "New Scientific Treatment" has cured thousands permanently by its timely use. He considers it a simple professional duty, offering humanity to donate a trial of his infallible cure.

Science daily develops new wonders, and this great chemist, patiently experimenting for years, has produced results as beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and consumption are curable in any climate is proven by "heartfelt letters of gratitude," filed in his American and European laboratories in thousands from those cured in all parts of the world.

Medical experts concede that bronchial, chest and lung troubles lead to consumption, which, uninterrupted means speedy and certain death.

Simply write to T. A. Slocum, M. C., 98 Pine Street, New York, giving postoffice and express address, and the free medicine will be promptly sent. Sufferers should take instant advantage of his generous proposition.

Please tell the Doctor that you saw his offer in the *ADVOCATE*. 51-17

Fewer cattle on the market than ever before known and a feeling of hesitancy prevailed. Most of the cattle were very common. Some 750 pound steers brought 4; a lot of 800-lb steers and oxen were held at \$37.50 but were not sold at a late hour. Twelve common heifers brought \$19.50 and six others, weight about 500-lb, sold for \$18.50; milch cows brought from \$25 to \$35; a 650-lb bull sold for \$30. No sheep and but few people around the pen.—Winchester Democrat.

Thousands of sufferers from grippa have been restored to health by One Minute Cough Cure. It quickly cures coughs, colds, bronchitis, pneumonia, grippa, asthma, and all throat and lung diseases.

LAND, STOCK AND CROP.

Farmers living near Lawhburg report that a flea or bug is destroying much of the tobacco that has been set.

Horses and mules are advancing in price and we may look for good ones to command big prices in the near future.

Brent Bros., of this city, yesterday, (May 23), sold to E. O. Fretwell for J. E. Miles, of Frankfort, about three thousand bushels of wheat at \$1.20 per bushel.—Borbon News.

The damage to the Daviess county wheat by the recent storms is reported slight and the prospects are for the largest and finest crop ever known in the county.

Reuben Gentry sold to Luther Snee, of New Harmon, Ind., a five-month-old Berkshire pig for \$50. Mr. Gentry last year sold more Berkshire pigs than any other breeder in Kentucky.—Danville Advocate.

Nearly all the wheat that was left in Woodford was cleared out during the boom last week. Mr. Brock, Boston sold at \$1.80. Messrs. Cain & Ront engaged several growing crops at 85c.—Sun.

John R. Green, a Christian county farmer, had on his farm a grove of cedars which he considered worthless. He has just contracted to deliver to a railroad 30,000 cedar posts and will make about \$5,000 off his despised grove.

Pans of charcoal set on the shelves, ledges or floor of a damp cellar which cannot be thoroughly ventilated will make the air pure and sweet. If a large basketful of the charcoal be placed in such a cellar where milk is kept there will be little danger of its becoming tainted.

Zade Hodgkin bought of George Sewell 60 hogs at 4c to be delivered June 1st; weight 200 lbs. Mr. T. J. Hildreth, of the Pine Grove neighborhood, sold his lambs, about 100 in number, to Downing & Christian at 15c for 15th or 20th of June delivery. Mr. Hildreth had a prime lot of lambs last season and this year's crop is equally as good. He finds that it is just as easy to raise good stock and costs no more than inferior breeds.—Winchester Democrat.

Potts & Dueron's wheat shipped to Chicago did not grade as No. 2, and they received \$1.17 per bushel, instead of \$1.60 as reported last week. Mr. Franklin Million came up from Perkins yesterday and says wheat between here and Valley View looks as well as he ever saw it this time of the year. Covington, Arnold & Bro. bought 7700 bushels of wheat from Wm. Glynn, of Paint Lick, at \$1.05. They also bought a car-load from Potts & Dueron at \$1.—Richmond Climax.

Thos. Whaley, of Moorefield, was here last week and bought milk cows as follows: to be taken at veal time on Prickley Ash, one of Samuel Latham for \$50; one of Thomas Evrman for \$60; one of Geo. A. Shront, of Washington Branch, for \$55; west of town, one of Jacob Warner for \$50; one of Tarlton Jones for \$45; two of Jefferson Dawson at \$65. J. M. Richard bought of J. J. Moore, west of town, a suckling mule for \$45; two of J. Albert Wright, of Flat Creek, for \$50. A. G. V. Cook, of Flat Creek, sold last week to Wm. Paul four cavalry horses at \$50 per head. Wm. Paul, of Harrodsburg, bought at \$75 each three cavalry horses of T. J. Root, Ed Hewitt and J. McCutche of near Sherburne.—Owingsville Outlook.

Must Pay the Tax.

A report from Washington conveys the news to Mercer county citizens that the United States Supreme Court decides the Mercer county railroad bond suit adversely to this county. The case has been in litigation for several years, and involves over \$150,000 which the county will now have to pay.

The Producers Get Nothing.

The Louisville Dispatch tells the tale truthfully when it says the gold standard newspapers are trying to make the farmers believe that they reap the bulk of the profit on wheat, when as a matter of fact it had left the hands of the farmer before there was any material advance. Those who have profited most by the advance in wheat are the speculators in Chicago and other business centers who were able to get from the banks sufficient money to corner the market.—Bulletin.

Get the \$5,000 Salary.

The Court of Appeals Tuesday affirmed the judgment of Judge Cantrill of the State Fiscal Court in the case of Auditor Stone vs. Judges Pryor, Lewis, and Hazelrigg. The decision is a victory for the three judges, who are allowed a \$5,000 salary per year instead of \$4,000. Auditor Stone raised the question that the three judges being in service when the law was passed, that they could not be entitled to the raise. Judge Lewis and Hazelrigg did not sit in the case and Special Judges Waddell and Wood sat. Judge Waddell dissented from the opinion of the court. The decision affected two years of Judge Pryor's term, four years of Judge Lewis' and six years of Judge Hazelrigg's term.

PRAYED FOR THE QUEEN.

Senate Chaplain Utters a "Hymn of Thanksgiving" Over Victoria's Birthday.

Washington, May 24.—The Senate Chaplain's opening prayer this morning was "A hymn of thanksgiving as we celebrate the seventy-ninth birthday of her Gracious Majesty the Queen of Great Britain and Ireland and Empress of India, whose conduct and character as daughter, wife, mother, friend, as well as gracious sovereign, have won and kept for her the loyal devotion of her own people and the reverent regard and love of all true hearted people of whatsoever name or race around the globe."

The Chaplain continued: "We pray Thee still to spare her life. Grant her health. Maintain the influence of her sovereignty. And when the time of her departure hence shall come, may she go in peace, comfort, and joy. Knit the hearts of the two peoples who speak the English tongue more and more strongly together, that we may work out the mighty problem of the highest civilization for the whole earth."

First Pension of the War.

Oshkosh, Wis., May 24.—The first application for a pension on account of the Spanish war emanates from Oshkosh. The applicant is Mrs. William H. Hook, widow of a private (who died of stomach trouble at Camp Harvey. Mrs. Hook is entitled to a pension of \$12 a month under the act of July 14, 1862, which awards that amount to childless widows whose husbands die in the service of the United States, after having been duly enrolled. The record, as furnished by A. J. Gen. Boardman, shows that Hook was mustered into Company F, Second Regiment, on Friday, was taken sick on Saturday and died on Sunday, May 15.

His Fourth Wife.

At 78 years of age, Henry Jiles, who was lately released from jail on \$1,500 bail for killing Joe Gatlin, on Big Hill, last July, was married yesterday to Mrs. Mary Williams, who is a half-sister of the second Mrs. Jiles. Mr. Jiles was married three times previous to this. He has property in Indiana and is very well to do.—Richmond Climax.

Middleboro's Fire.

A report from Middleboro tells of a destructive fire which swept over Park Hill, the aristocratic residence suburb portion Monday night, completely destroying five of the handsome residences in the city. The destroyed property belonged to J. D. Underhill, Bank of Lancaster; J. P. Sandifer, J. F. Beoworth, and G. W. Sanberry. The total loss estimated at \$25,000. Insurance \$11,900.

A Brutal Negro Hanged.

Jo Mitchell, a negro brakeman on a C & O road, pushed a small white boy off a moving train at River, Tenn. The boy fell under the cars and had both legs crushed into a shapeless mass. Before he died he told of Mitchell's brutality. The negro was arrested but a mob took him from jail at Union City, Tenn., and hanged him.

Her Filicides.

A Bolivian woman, after hurying her seventh husband, erected a monument to the whole lot. It consisted of a marble band with the index finger pointing to the sky, and on the base, instead of names, dates, etc., were the words, "Seven Up."—From the Somerville Journal.

Can't Keep a Good Man Down.

The Osawatomie (Kan.) Graphic says: "Charlie Harding now has a fine pack of six long-eared, deep-chested cow dogs. He is working out a tax on the dogs by breaking stone on the city rock pile and is keeping a lookout for a chance to trade for another good hound."

Lieutenant Governor Jeremiah C. South, of Arkansas, is going to war as a private in the Batesville company of the Arkansas National Guard.

The Gold Fields of Alaska.

In order to accommodate the heavy travel to the new Eldorado, which it is expected will set in early and continue during the coming season, the Missouri Pacific Railway Company will inaugurate a weekly tourist sleeping car service between St. Louis, Portland and Seattle, first car west-bound to leave St. Louis Tuesday evening, February 22, and continue weekly thereafter, making no change between St. Louis and the Pacific Coast. No other route can offer such splendid through accommodations, matchless scenery and interesting points on the way. This is the most desirable route to Portland and Seattle, and special attention will be given to parties en route to Alaska. Valuable printed matter on the gold fields and the latest information in regard to rates, routes, etc., to that territory will be cheerfully mailed on application.

A. H. Stewart, Deputy Warden of the penitentiary at Frankfort, resigned on Thursday. He went to Knott county where he will raise a company of volunteers to go in Congressman Colson's regiment. Probably he realized that soon he would lose his position, and was willing to seek glory and a salary in fighting the Spaniards.

The will of Mrs. Dr. Logan, who recently died in Lexington, was probated last week. Among other bequests she left to the Midway Orphan School \$6,000 and to the College of Bible, at Lexington, property valued at \$8,000. She was generous in life and in dying has placed her wealth where, through generations, blessings will come to hundreds of deserving and aspiring young men and women. Her example is worthy of imitation. Many will call her blessed.

The Second Regiment of Kentucky Volunteer Infantry left Lexington Wednesday afternoon for Chickamauga. There were very many close friends of the soldiers at Lexington to bid them a final farewell before they started off to the army. Many tears were shed, and to the credit of the manly set of men who will give a good account of themselves in the coming hours and scenes that try men's souls, be it said they were not all shed by women. For a soldier that will fight till the last drop of his heart's red blood is spilled, commend us to the man whose affections are so strong as to force a tear to the eye when he parts with his loved ones.

The Marquis of Salisbury, the great political opponent of Mr. Gladstone, in a magnificent tribute paid the "grand old man", whose life work well done, so lately laid him down to rest, said: "Mr. Gladstone was ever guided in all his efforts by a lofty moral ideal. The deceased will be remembered not so much for his political work as for the great example, hardly paralleled in history, of the great Christian statesman."

Gladstone won a place in Westminster, but if those who have passed over the river may look back from the thither shore, he would rather have deserved Salisbury's tribute than have secured a resting place among the famous abbey's galaxy of immortals.

FILL UP THE RANKS.

Many of the States desire the privilege of recruiting as many new recruits as possible under the second call of the President for volunteers. The authorities at Washington think it wiser to fill the ranks of the regiments already recruited to their maximum strength. They were recruited at the minimum number. In replying to the Secretary of War the

Governors of all the States promise the government all the troops wanted. They only ask for an opportunity to let the people show how ready they are to serve the country by volunteering in the army. Kentucky under the second call will have but one new regiment.

The election of trustees for Mt. Sterling's Public Graded School which comes off next Saturday, June 4th., deserves more than a passing notice by our citizens. The people of Mt. Sterling have a deep interest in this school. As at present conducted it is an institution of which the city may well be proud. Let its management pass into the hands of an inefficient or indifferent board of trustees and there will be a very different state of affairs. The present board is an exceptionally efficient one. We very seriously doubt if there can be found the same number of men in the city who can give such general satisfaction and such faithful service to the public as this board has done.

While we have not heard that the board now in office is seeking a re-election we are firmly persuaded that the educational interest of the city will not be conserved by a change. Under the administration of the present board and the very efficient corps of teachers that have been in charge, the institution has been so built up that the people of Mt. Sterling can point with pride to their Public Graded School. Let us see to it that nothing is done to lower the standard of education in our midst.

Congressman I. Y. Fitzpatrick was in the city on Saturday and Monday, having spent Sunday in Franklin county with his wife and daughter, who are visiting kinfolk. He is in daily communication with Washington so that he can return at once if his presence is required in consideration of any important measure that may come before the House. He is deeply grateful to his Montgomery friends for their past support, and trusts that his course merits their approval and support, after they have considered the claims of Mr. Kinsolving, our county man.

He has spent several days in different sections of the district renewing his acquaintance with the voters, and unless called to Washington will remain in the district until after the convention. As has been previously announced precinct mass meetings will be held on Thursday, June 16, the county meeting on Saturday, June 18, and the district convention at West Liberty on Thursday, June 23.

Joseph Earlywine, of Paris, has been selected as stenographer for Gov. Bradley. His predecessor, Joseph Simcox, preferred military service as Adjutant of Third regiment of volunteers. Success to our Kentucky office holders who go forth to war.

Free! Free! Free!

Given away for a few days only commencing Saturday June 4, 300 boxes of Wright's Celery Capsules at W. S. Lloyd's drugstore. Any person afflicted with liver, kidney, or stomach complaints, rheumatism, dyspepsia, constipation, sick headaches, can get one of the boxes free. Wright's Celery Capsules are purely vegetable, easy to take, no bad taste, do not grip. Parties living out of the city can get them free by addressing The Wright Medical Co., Columbus, Ohio.

Another Burglary.

On Wednesday night some one entered the residence of John T. Woodford while he slept. His suit was carried out of the bedroom; coat and vest were left in the hall, but pants were taken away. The thief secured a gold watch, knife and key. There is no clue.

LAND, STOCK AND CROP.

H. R. Young bought of W. L. Thompson 632 acres of land, part of the Van-Tompson farm; for \$2,100 cash.

Hogs have advanced, and are brisk at \$3.50 per 100. Stock cattle are very dull. Mules scarce and high.—Lexington Gazette.

The export of hog products from all parts of the United States during last week were 38,920,000 lbs., against 29,200,000 lbs. for corresponding week in 1897.

The Stanford Journal notes the sales of a pair of fancy Polled Angus calves for \$200; 16 sheep with lambs thrown in at \$4 each; a lot of hogs for July delivery at \$4.

Dan Morris sold a handsome chestnut gelding to Warren-Stoner, of Mt. Sterling, to be used in the war in case Mr. Stoner's company of cavalry is accepted for service.—Bourbon News.

If we want milk, butter or beef let us breed and feed directly toward such an end. Whatever else we can get by the way we can count as clear gain. General purpose animals are not a sure thing.—Farmers Home Journal.

There has been but little trading during the past week in cattle and hogs. Sam Turley sold to a local butcher, a better, 850 pounds, at 4c Turley & Robinson bought, and will ship today, a car load of hogs, for which they paid \$3.50 to \$3.60 per hundred.

Monday was a small Court Day in point of numbers and business, but a good day for stock sales. Several

The oil will feed her wasting body; the glycerine will soothe her cough, and the hypophosphites will give new power and vigor to her nerves and brain. Never say you cannot "take cod liver oil" until you have tried Scott's Emulsion. You will be obliged to change your opinion at once. Children especially become very fond of it; and infants do not know when it is added to their food.

horses buyers were in town looking for army horses, and probably sixty head were bought at from \$55 to \$80 each. Some fancy horses sold for \$100 to \$175. There were about 125 head of cattle on the market and good prices realized. There was also a large number of sheep which sold at 24 to 30 per lb. C. A. Peters reports sold 15 yearling steers at \$35; 14 at \$38.25; 12 at \$27.50; 10 heifers at \$28.50; 2 cows at \$40 each; 1 pair cows at \$72.50; 3 plug horses at \$30, and 100 sheep at \$2.40.—Fleming Gazette.

The tobacco growers took advantage of the fine tobacco season of yesterday and set out the large part of the unplanted crop. Several hundred hands went out from town during the early hours of yesterday morning to get out plants. The farmers had their ground in fine condition and the plants in the beds were strong and vigorous so that there is a prospect of the crop getting an early start. The acreage in this county will be at least 30 per cent. more than last year.

S. D. Goff sold this week to Paris parties about ten thousand bushels of grass seed, the crop of 1897, at sixty cents per bushel. The same parties got about the same quantity from George Proctor, Joe Brown and Clayton Strode and also brought the growing crops of S. D. Goff, J. L. Brown and W. M. Robb. Brook & Raliback bought of Bourbon parties 33 good steers, weighing 1,000 pounds to be delivered June 10th, at \$4.30. Brook & Raliback have shipped this week about 300 fat ewes and wethers which cost 3 cts and a few lambs at 5 cents.—Winchester Democrat.

RELIGIOUS.

The W. C. T. U. will meet at the Baptist church on Wednesday, at 3 p. m.

On next Saturday night, June 4th, there will be an ice cream and strawberry supper at Union or Peledok church. All are cordially invited. Proceeds for the benefit of the church.

There will not be preaching at the Court House on Sunday morning, as the pastor Rev. H. D. Clark preaches the Baccalaureate sermon for Professor Rogers' school at the Methodist church. The regular communion service of the Christian church will be held at the Court House at 3 o'clock. Instead of the evening sermon the Children's Day exercises will be observed. Note these changes.

The joint meeting of the C. W. B. M. and Kentucky Christian Missionary Convention will convene in this city on Monday, June 20, and continue until Thursday evening. The C. W. B. M. finishes its work on Tuesday evening, and on Wednesday the other convention begins its deliberations. Our people remember that this convention met in this city in 1886. A large attendance is expected.

BIRTHS.

Born, on May 30, to Claire DeGarmo and wife, a girl, 10 pounds.

His Old Black Mammy.

The Lexington Leader tells the following pathetic incident that occurred at Burgin when the train bearing the Second Regiment of Kentucky Volunteers stopped there on its way to Chickamauga. It says:

"The most pathetic incident of the entire journey occurred here, when an aged colored woman tearedly made way through the crowd and reached Col. Galtier's hand. 'Good-bye,' she cried as the Colonel greeted her. 'I will never see you after the war.'"

"I will never see you after the war," sobbed the old woman, and she was led away by a younger person, crying as if her heart would break. Col. Galtier was perceptibly affected. He turned and said: 'Bless her dear old heart. She was my nurse in childhood.'"

Thirty third Annual Sunday School Convention.

The Annual State Convention of the Kentucky Sunday-school Union will be held in Paducah on June 14, 15 and 16. A most attractive and practical program has been arranged. Well-known and experienced speakers will discuss topics of vital importance to Sunday school workers.

The music will be in charge of Prof. Charles Davis, who is training a choir of Paducah singers.

Delegates.—Every Sunday-school in the State is entitled to one delegate for each hundred members or fraction thereof.

Entertainment will be provided for all accredited delegates on condition that their names are enrolled on or before June 13 with Rev. W. H. Pinkerton at Paducah.

Transportation.—All the railroads in the State have made a rate of one fare for the round trip on presentation of credentials.

Credentials may be obtained from county officers, or from the State Secretary at Room 19, Louisville Trust Building, Louisville. 45-2t

Dr. Ongleton, of Dwight, Ill., is here buying horses. He bought yesterday a number of good ones. Among them a pair of iron gray of Warren-Stoner for \$400; of Wm. July a five year old mare for \$160; of C. R. Frewitt a yearling colt by Bourbon chief \$125; of N. D. Young, a gelding for \$185; two from Wm. Kerr, and several from other parties the prices of which we did not learn.

The Third Helmet has been mustered into service at Lexington and orders have been received for it to go to Chickamauga to-morrow. The men will not be equipped till they get to Chickamauga where arms, clothing, etc., will be issued to them.

Wash Fabrics

That fairly whisper thoughts of warm days of Summer. Delicate tinted fabrics greet the eye on every side. French, German, English, Scotch, and our own American makes are blended into one bewitching show. Organdies join hands with dimy, airy batistes, linen noves with dainty dimities, and Scotch sateens take their place in the exhibit by the rich folds of the world's best printers.

We keep good strong linings—the kind that do not pull and stretch, no trash. If you have good goods never use inferior linings. We keep the best.

Carpets.

Mattings, Rugs, Curtains, Linoleums. Correct patterns at old-tarif prices. Don't wait too long—prices are going up. We cut and sew them for you. The stock is all new—the largest we have ever had. We excel in the best patterns of Body Brussels and All-Wool full extra Super Ingrains.

GRUBBS & HAZELRIGG.

For Brigadier General. Major A. T. Wood, of this city, is being talked of for Brigadier General of volunteers. Governor Bradley, who is a warm personal friend of Major Wood, will, no doubt, be glad to recommend the appointment to the President. Maj. Wood was a brave soldier in the Civil War and can point with a pardonable pride to his record in Uncle Sam's service during that bloody conflict. The appointment of Maj. Wood to the position of Brigadier General would be received with marked favor by a large majority of the people in this end of the State, irrespective of any political affiliations.

A New Pike.

The Fiscal Court is having surveys and estimates made for the building of a new pike that shall run from the Hinkston pike to the Owingsville pike. It is proposed that the new pike shall begin on the Hinkston pike between the farms of R. B. Crooks and El Shackleford and shall intersect the Owingsville road at Ewington. The length of the proposed new road will be about one and three-quarter miles. This proposed road is one that is greatly needed for the convenience of the people in the section of the county lying east of town. Men at Ewington, who have business in the Crooks and Shackleford neighborhood or beyond, have to come around by Mt. Sterling, a distance of some five miles, and the new road will reduce this distance. They will have to travel to the same point to less than two miles. Besides all this, the people living on the Owingsville pike and beyond are complaining that they have to pay toll when the other roads of the county are free. The new road will give these people the free travel they are asking for and to which they are entitled under the existing condition of the roads in the other sections of the county. The owners of the Owingsville and Mt. Sterling pike and the members of the Fiscal Court have been unable to come to any terms for the purchase of the road, although they have made a number of ineffectual attempts to do so.

A Dutiful Son.

Governor Bradley came to Lexington Tuesday to deliver in person to the officers of the Second Regiment their commissions. The hour for the presentation was set for noon, but it was found necessary to change the hour to 3 o'clock. When Maj. Owens (ex-Congressman W. C. Owens) heard of the change of hour he requested that Governor Bradley leave his commission with Col. Gaither, as he was to go to Georgetown at that hour in order to bid his aged mother a final good-bye before he left for active service. Some of the officers begged Maj. Owens to stay and take his commission from the Governor's hands. He replied that he would not fail to keep his engagement with his mother if it cost him his commission to do it. Governor Bradley hearing of Major Owens' desire to see his mother, promptly and gladly changed the hour for presentation to suit Major Owens' convenience.

This Mother Gives Two Boys to the Service.

Mrs. W. M. Beckner had a lively experience Monday growing out of the war. She went to Lexington in the morning to bid her son, Seth, who is First Lieutenant of Company C, Second Regiment, Kentucky Volunteer Infantry, good-bye, as he was to leave for the front Wednesday, and coming home on the noon train, left at night for Annopolis, to say farewell to her son, Taliaferro, who is no doubt by this time on his way to take part in the struggle as a naval officer. Nobody could give her boys more heartily to the service of the country than does Mrs. Beckner. They are stout and healthy, have been trained to be men, and have enjoyed many hardships, of which they would not be worthy, as she thinks, if not willing to do their part when needed. She comes of a family in which there have been many gallant soldiers—Winchester Sun.

Our Indian friends were never regarded as being fired with a great amount of patriotism, but the reports that have been coming in lately from the different reservations tell a different story. They are all to the effect that Lo is not only willing but most anxious to fight under the banner of the Great Father at Washington. Five hundred Navajo Indians have offered their services, while the Seminoles, Cherokees and other tribes are also eager to get a rap at the Spaniards. One who lives among the Indians in the West says that they have a score against the dogs for letting Columbus come over here, conquer their ancestors and take this country from them, and they think the present a good time to settle it.

Child Was Nervous and Irritable and Had No Appetite

Hood's Sarsaparilla Has Changed All This—Scrofula Cured.

"Hood's Sarsaparilla has had a wonderful effect on my little daughter. She is five years old and has been very delicate all her life. She was nervous and irritable and had no appetite. A large lump would appear on her neck every few weeks and then would disappear, leaving her very weak. We concluded to give her Hood's Sarsaparilla. At that time there was a lump on her neck. When she had taken one bottle it had disappeared altogether and she seemed like a different child. Instead of being cross and fretful she goes about laughing and singing as merrily as any child. We are very grateful for Hood's Sarsaparilla." Mrs. J. B. GARDNER, Bardonia, Kentucky.

Clay & Woodford, in The Thoroughbred Record, say: "Our experience in paying five dollars last year has induced us to still further experiment in that direction. We last week sprayed twenty yearlings and one two-year-old and in ten days they have not lost a single one. We believe if the breeders would adopt the system of spraying 75 per cent of their fillies, leaving entire only good individuals and those coming from the best racing families that in a few years we would have the grandest lot of brood mares in the world, and worth five times what they are now. This would give us an improved class of race horses and better prices all around. From experience we believe that sprayed fillies have more stamina and train better than those entire."

IT IS NOT A STRATEGY BOARD.

Senator Long Says His Advisors Do Not Hamper Sampson.

Washington, May 31.—Secretary Long talked interestingly to-day with a Sun reporter about the much criticized body of officers, the so-called Naval Strategy Board, which certain newspapers here and abroad have presumed to be intrusted with the conduct of the naval campaign. The attention of the London Times to a statement in the London Times that it would be wise to leave the direction of operations to naval commanders instead of a board in Washington.

"That shows how little the writer knew on the subject," he said. "That is exactly what we are doing—leaving the conduct of operations to commanding officers. The freedom of action given to the commanders of squadrons was shown in the orders to Admiral Dewey, which have been published. He was allowed to make his own plans. A similar case is that of the movement against Porto Rico by Admiral Sampson. He was allowed to carry out ideas of his own in attacking San Juan."

Mr. Long explained that the term Strategy Board was erroneous. The name of this advisory body, was, he said, the War Board. It does not undertake to arrange out and dried programmes for naval commanders to follow, for the department realizes that an officer on the ground is much better fitted to do his work well without being hampered by advice from others not on the ground.

The War Board is not a strategy body. It has no set rules or regulations, and is not composed of a certain number of men. Its members are officers in whose judgment and ability the Secretary of the Navy has confidence, and they act merely as confidants. The principal function of the board is to collect information about the enemy and furnish it to the commanders of the American squadrons or single vessels.—New York Sun.

Deafness Cannot Be Cured

by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

Off for Manila.

The steamship Anitra, City of Peking and City of Sidney with 25,000 troops aboard sailed for Manila. The ships are due at Manila about June 20. The expedition, which is under command of Brig. Gen. Anderson, consists of four companies of regulars under command of Maj. Robt. E. The first regiment California volunteers, Col. Smith; the first regiment Oregon volunteers, Col. Summers; a battalion of 500 heavy artillery, Maj. Garry, about 500 sailors and eleven naval officers.

The fleet is loaded with supplies to last a year, and carries a big cargo of ammunition and naval stores for Admiral Dewey's fleet at Manila. It is not probable that any more troops will be dispatched before our war with Spain is closed. The three big ships will re-appear at Honolulu and probably without waiting for the Charleston, which will not steam above ten knots an hour in order to save coal, they will hurry on to Manila.

Nicol & Thomas, Lexington, have recently sold forty-five high-class horses in one week. Of these 33 Kindig, of Philadelphia, bought four; John A. Campbell, of East St. Louis, ten; and the Mayor of Rockport, Ill., eight. Four of them, Kentucky saddle horses, went to Canada. With the exception of the four last named, the horses were high steppers and coach horses.

WE HONORED THE QUEEN.

The News Suggests That England Reciprocate on the Fourth at July.

London, May 31.—The morning papers here give prominence to dispatches from the United States telling of the celebrations there in honor of the Queen's birthday. The Daily News says:

"Certainly some opportunity should be taken to reciprocate these demonstrations of good will. This will naturally occur on the Fourth of July."

The full intensity of living is reached only by the perfectly healthy. Sickness discounts the capacity for enjoyment. If his body is all out of order and run down, he will not be able to enjoy anything, no matter how full of enjoyment it may be for other people. If he is just a little bit out of order, if he is "a not sick, but just doesn't feel right," he will only be able to enjoy things in a half-hearted sort of way. The nearer he is to being perfectly well, the nearer will his capacity for enjoyment be perfect. If this condition doesn't exist, something ought to be done. That means nine cases in ten the use of Dr. Pierce's Golden Medical Discovery. It works directly on the digestive organs, and on the blood and through these on every tissue of the body. It makes the appetite good, digestion and nutrition perfect and supplies rich, red blood to all the tissues, building up solid, healthful flesh.

1,700 7-Inch Projectiles.

Troy, N. Y., May 26.—The McManis Iron Foundry on Centre Island has received an order for 1,700 7-inch projectiles, to be delivered at the Watervliet Arsenal. Heretofore the Government has made all its 7-inch and 5-inch projectiles, and this is the first order of the kind to be placed outside. The projectiles are 21 inches long and weigh about 100 pounds each. The order requires that they shall be furnished at the rate of 100 a day. The foundry started to-day on 24-hour time, and in a working day of that length it is thought that 96 projectiles can be turned out. By working on Sundays the average can be brought up to the required 100 a day.

Scrofula, a Vile Inheritance.

Scrofula is the most obstinate of blood troubles, and is often the result of an inherited taint in the blood. S. S. S. is the only remedy which goes deep enough to reach Scrofula; it forces out every trace of the disease, and cures the worst cases.

My son, Charlie, was afflicted from infancy with Scrofula, and he suffered so that it was impossible to dress him for three years. His head and body were, and his eyesight also became affected. No treatment was of any use until he was brought to this condition when he was cured by the use of a friend's S. S. S. (Scrofula Specific). A doctor's last resort was the result, and after he had taken a dozen bottles, one who knew of his former condition, told him he had recognized him. All the sores on his body have healed, his skin is perfectly clear and smooth, and he has been restored to perfect health.

A dispatch from St. Petersburg, Russia, says that the official report of the great snowstorm which began in the Kuban territory on April 15 and lasted until April 17, shows that 35 human beings, 9,410 horses, 39,923 cattle, and 114,018 sheep, goats and swine perished.

An aeronaut says that there is some difference in the air at the earth's surface and at an altitude of half a mile that there is between water in a muddy puddle and the purest spring water. He states that for a time one feels after coming down from an ascent as if one were breathing "mold dust."

Sir Henry Havelock, in speaking of military courage, once said: "In my experience in any British regiment there are always a hundred men who would storm the gates of hell, 800 who if they did would follow in, 100 who want to skulk in the ditch, and about 30 who do skulk there or else where."

Before the departure of the Second Regiment from Lexington to Chicksaw, Deputy Marshal McCarthy served a writ of habeas corpus on Col. Gaither for possession of George England, of the Lebanon company, an 18-year-old boy. Col. Gaither referred the marshal to the war department, and said the boy was not under duress, but if he left he might be treated as a deserter. The boy refused to desert and left with his company. His parents secured the writ from Judge Barr.

Our trade with Japan grew very rapidly last year—in fact, more rapidly in proportion than that of any other nation. The gain which the United States has made over other parts of the world in supplying Japan is shown by the fact that the imports from the United States increased 65 per cent. in 1897 over 1896, while in total imports from all parts of the world the increase of 1897 over 1896 was only 25 per cent. The gain of Great Britain, the chief competitor was only about 10 per cent.

ONE UMBRELLA IN THE RAIN.

She smugled close to me for fear
The rain would soil her pretty dress.
I wonder if she knows how queer
My arm feels 'neath her soft caress.
Oh, could I shelter her for aye
From time's rude hand and sad emotion,
How smiling she would look today.
Happy with me all life to share!

I wish I dared to press her arm,
But she might think me overbold.
In modesty there is a charm
That never lets the pulse grow cold.
So I will strive all day
And feel proud, proud and proud,
Although my veins seem all a-fire
While walking in the rain with him!

Left to the rain and beating wind,
Alas, no thought they give to me!
I wonder how they give to me!
And bring him that he cannot see.
The retribution in the main!
Did the same, so never mind—
I often met Jack in the rain
And let poor mother walk behind!

The Ethnology of Kinsing.

The Kins was unknown, I think, among the aboriginal tribes of America and of central Africa. From the most ancient times, however, it has been familiar to the Asiatic and European races. The Latin divided it into three forms—the osculum, the basium and the suavius, the first being the kiss of friendship and respect, the second of ceremony and the third of love. The Semites always knew the kiss, and Job speaks of it as part of the sacred rites as it is today in the Roman church.

The Mongolian kiss, however, is not the same as that which prevails with us. In it the lips do not touch the surface of the person kissed. The nose is brought into light contact with the cheek, forehead or hand. The breath is drawn slowly through the nostrils, and the act ends with a slight smack of the lips. The Chinese consider our mode of kissing full of coarseness and suggestiveness, and our writers regard their method with equal disdain.

The Old Marine Band.

The big man in the band of former days in the Marine band in its infancy was the man who marched in the front and played a charge of bells which was rigged up on a long pole. He was an "omega" band of himself. Behind him marched two or three others who had similarly arranged chimes, though of smaller proportions. There may have been cornets, trombones and baritone horns in existence then, but certainly none of them was ever carried by the Marine band until 1836. I was married that year and remember very well seeing the band parade a year or so before my marriage, and I am certain there were no horns or trumpets. I don't know that their music was not as sweet as it is today. It sounded to me like the music of that day so anyhow. There seemed to be more music in the string and reed instruments than in the various horns of today, and the one who carried the china bells could, for sound at least, double discount any of the performers in the band today.—Washington Star.

Utterbacks Admitted to Bail.

The examining trial of Heskiah Utterback and his son, Wm. Utterback, both charged with the murder of Dudley Clinkensbeard, at the "Dark Corner," several weeks ago, was held yesterday before Judge W. M. Patterson. It will be remembered that the parties quarreled over a pass-way through a farm, and that Clinkensbeard wounded both of the Utterbacks before he was killed. Heskiah Utterback was admitted to bail in the sum of \$2,500, and Wm. Utterback in the sum of \$750. They both gave bail, their bondsmen being Hon. Walter Sharp, S. F. Allen, Thos. and Elliot Sharp, Ed. Gillespie and "Ope" Gillespie, whose wealth will aggregate several hundred thousand dollars.—Bourbon News.

A QUEEN OF THE SEAS.

The Record Breaking Trip of the Famous Old Red Jacket.

In Maine they dwell with pride upon the performance of the Red Jacket, built in Rockland in 1836 by Deacon George Thomas. The Red Jacket made the run from New York to Liverpool in 13 days 1 hour and 25 minutes in the month of January, 1854. This was the best trip up to that time, and it probably never has been beaten, although a faster trip, by a few hours, was claimed for the Boston ship Lightning. When the Red Jacket started on her trip, the record was held by the ship Sovereign of the Sea, built in East Boston by Donald McKay—18 days 19 hours.

The Red Jacket was 234 feet keel, 44 feet 7 inches beam, 10 feet lower hold, 8 feet between decks, 235 feet over all and measured 2,500 tons, making her the largest ship afloat at that time. There was great excitement both in New York and in Liverpool, over the first trip of the Red Jacket, for it was known all over the maritime world that she had been built expressly to beat the record of the Sovereign of the Sea. She was also to set a mark for the Live Yankee, a ship built at Rockland at about the same time, and for several others. Large amounts of money were wagered on the result of her passage.

The Live Yankee had a hard passage and came nowhere near the Red Jacket's time. As illustrating the shrewdness of Deacon Thomas, it is related that, hearing that several other builders were about to construct ships on the same lines as the Red Jacket, he altered his molds slightly, putting in five extra frames amidships. This probably helped the speed of the Red Jacket. As a matter of fact, that respect she differed from her rivals.

A Rockland man, who was in Liverpool when the Red Jacket arrived there, gives an interesting account of her triumphal entry into the great English seaport. The excitement was intense—scarcely less than in New York. A day before the Yankee clipper was expected to arrive the American steamer came in and re-stayed the ship just outside, and in a few hours the Red Jacket appeared at the harbor's mouth. Hundreds of cheering sailors had boarded her, and two tugs had lines to the ship, although her speed was so great that they could not keep the hawsers taut. She came flying up the harbor with every stick drawing in a brisk north-wester, and, greatly to the astonishment of the natives, instead of coming to an anchor and being laid up to the pier head by tugs, she came about, threw her yards hard aback and actually laid herself up!

About a year afterward the clipper ship Lightning was built by Donald McKay at East Boston for an English firm for the express purpose of beating the Red Jacket's time between New York and Liverpool. It was claimed that she accomplished the feat by a few hours, but the claim has always been disputed, and it is likely that the Red Jacket still holds the record. The Red Jacket never returned to this port under the American flag, having been sold almost as soon as she arrived on the other side for \$150,000 to an Australian packet line. Extensive alterations were made in her to suit the needs of the passenger and freight business between Liverpool and Melbourne, and she made many fast passages in that service. She was again sold when her rate ran out to Henry Milvinn of Newcastle, England, and after her days as a lumber lugger between Quebec and the United Kingdom.—Lewiston Journal.

Simple Language.

Simple language is on all accounts preferable to high sounding words when ordinary matters are discussed. We wish that young people could be taught that it does not add a foot to the stature of a house to call it a "residence"; that a church or even a meeting house is as venerable as "the sacred edifice"; that it is no more genteel to say "retire" than to go to bed; that the garment so covered with gold platings and so quickly frayed out along the pavement is really a gown; that it is not a "promenade costume," that it need bring a blush to the fair cheek of even Mr. Pepsin's young person to say "leg instead of 'limb,' when leg is meant; that the supper at an evening party is not "the entertainment," and that there are well founded objections to the use of "nicely" as an adjective describing one's health.—New Orleans Times-Democrat.

A little boy asked for a bottle of "get up in the morning as fast as you can," the druggist recognized a house hold name for Dr. Williams' Little Early Risers and gave him a bottle of those famous little pills for constipation, sick headache, liver and stomach troubles.

THE SPANISH FLEET

IS LOCATED IN THE HARBOR OF

SANTIAGO.

Captain Sigbee of the St. Paul

Puts All Doubts at Rest.

He Steamed in Close Enough to

Identify the Spanish Fleet.

SCHLEY IS WANTING OUTSIDE.

The following special cable message as taken from the Courier-Journal gives the latest news from the front:

Mole St. Nicholas, Hayti, May 29.—I can state positively that Commodore Schley has part, if not all, of the Spanish fleet bottled up in Santiago Harbor.

This has been suspected for several days, but it was not definitely known until this morning, when Capt. Sigbee, of the St. Paul, who has been cruising off the harbor for the past week, steamed close enough to distinctly see two cruisers of the Vizcaya class and two torpedo boat destroyers lying just inside the mouth of the harbor.

It is believed that the rest of Cervera's squadron is also there. The St. Paul has been watching Santiago for eight days. Capt. Sigbee thinks two Spanish torpedo boat destroyers ventured out of the harbor Saturday night to attack the St. Paul, but, anticipating such a move, he changed his position every night in order that they could not locate him.

To-day Commodore Schley took a position with the entire squadron to prevent the escape of Cervera. He hopes the dons will come out and fight. The opposing fleets are of about equal strength. The Herald and Courier-Journal tug passed Rear Admiral Sampson's fleet of eighteen vessels fifteen miles east of Cardenas, Friday at 3 o'clock in the afternoon, headed west. It is probable Admiral Cervera will remain inside and postpone an engagement indefinitely, but the blockade will be effectively maintained.

Schley Cables He Has the Enemy

Washington, May 30th.—The Navy Department has just received, at 12:30 o'clock this (Monday) morning, a dispatch from Commodore Schley stating that the Spanish fleet is in the bay of Santiago de Cuba, and that he has seen and recognized the vessels.

There seems to be no longer any doubt that the Spanish Admiral, Cervera, is bottled up in Santiago harbor. The Navy Department has received official information that Commodore Schley is before Santiago and that the

Spanish fleet or at least the greater part of it is within the harbor.

Rear Admiral Sampson is off the north coast of Cuba with his fleet.

The general orders which have been issued for the government of the army while in the field are identical with those issued April 24, 1898. They were adopted by both belligerents in the Franco-Prussian war, and were the basis upon which a general European conference afterward acted in drawing an agreement on this subject. The instructions make twenty-four pages of print and cover almost every conceivable feature of military conduct and usage in time of war and a definition of many of the terms used.

The health of the troops composing the big army of volunteers now in camp at Chickamauga is remarkably good, considering the conditions. Ill troops, Minnesota and Wisconsin troops suffer most, though as a rule their ailments are not of a serious character. The National Committee, organized in Chattanooga, will take charge of and distribute all supplies contributed for the relief of the sick and needy soldiers.

Confirmation is had of the arrival of the Spanish torpedo-boat destroyer Terror at San Juan, Porto Rico, from Fort de France, Martinique.

The British police at Hong Kong have seized a quantity of stores intended for the United States auxiliary cruiser Zafra. Admiral Dewey is said to be fortifying Corregidor Island and mining the channel.

Speaker Reed is said to be ready to give the Hawaiian annexation resolutions full sway in the House as soon as they pass the Senate, but is opposed to sending them first through the House.

About 50,000 of the second call volunteers will be used to fill out the detachment organized under the first call. The remaining 25,000 will be organized into regiments and distributed among the States in the same proportion as under the first call.

The cruiser Columbia put into New York harbor Sunday with a great jagged hole in her starboard side. She had been in a collision with the British steamer Focella, which was sunk. The Columbia rescued the Captain and all twenty-one of the merchantman's crew.

It is believed that the Revenue Bill will pass the Senate the last of this week or the first of next practically as it passed the House. It will probably provide for a \$300,000,000 bond issue and \$100,000,000 in time certificates.

Mr. Isa C. Pritchard, of Boston, but who is at present located here, received a letter from his brother, who is with the Second Kentucky in camp at Chickamauga, saying that orders had been issued forbidding the men to buy provisions from private parties. The suspicion has been aroused that some parties, working in the interest of the Spaniards are trying to poison the men in camp. Surely hemp is neither so scarce nor so high in price but that Uncle Sam can purchase a few bales for his soldier boys to use on the suspects.

Those terrible dizzy spells to which women are subject are due nine times in ten to some weakness or unhealthy condition of the distinctly feminine organs. The average doctor in general practice does not half realize this. He prescribes a weak stomach and a weak liver trouble without suspecting the real cause of the difficulty.

A woman usually understands what is the trouble but is loath to undergo the mortifying and generally useless "tamponade" and "local applications" on which the local practitioner is almost sure to insist. But there is a far more sensible alternative: Any woman afflicted with a delicate weakness of this nature should seek the aid of that marvelous "Favorita Prescription" invented by Dr. R. V. Pierce, chief consulting physician of the Favalier Hotel and Surgical Institute, of Buffalo, N. Y.

In any case so obstinate as not to be promptly cured by this great "Prescription" special advice for inexpensive home-treatment adapted to the individual case, will be sent by Dr. Pierce to any woman who will address him by mail. All letters are treated with the strictest privacy and sent printed except by the writer's special request. Cases referred to his own eye in the hands of one who has a lifetime's experience and who stands among the most eminent of living specialists in this particular field of practice.

Every woman should possess a copy of Dr. Pierce's famous thousand-page illustrated volume, the Common Sense Medical Advice which has had a larger sale than any medical book in any language. A paper-bound copy may be sent absolutely free on receipt of six one-cent stamps to pay the cost of mailing only. Address: World's Dispensary Medical Association, Buffalo, N. Y., or send 21 stamps for cloth-bound copy. A whole medical library in one 1000-page volume.

Miss Leila Anderson's school closed on last Friday, and she will go to Cincinnati this week to consult a specialist for her eyes.

Ollie Priest and wife, of North Middletown, attended church last Sunday at Grassy Lick.

W. B. Greene went to Cincinnati last week and sold to Boston parties a purchase of 5,000 lambs which he had bought in this, Clark and Bourbon counties, to be delivered late of June to late of July, at a profit of \$600.

Mrs. James Peed met with a painful accident on last Sunday morning. While driving to church her horse became frightened and kicked her on the arm, badly bruising it. The horse was caught before other damage was done.

The past week was most favorable for all growing crops. A good tobacco season on Saturday and Monday. About one-half of crop set. Plants are in good shape to set. There is a good deal of complaint of cutworms destroying all of the first planting.

The farmers are well up with their work, and a most flattering prospect for all farm products, especially wheat.

There is a good deal of complaint of cattle bloating on clover and several dying.

All fruits are in good condition. The largest strawberry crop in years. The raspberries and blackberries also will be plentiful. Gardens wonderfully improved and advancing rapidly.

The meeting which is going on at Grassy Lick, conducted by Rev. T. S. Hubert, is well attended and great interest is taken in his most excellent sermons. The meeting is likely to hold over this coming week. There have been three additions.

Last Sunday was Children's Day for the Grassy Lick Sunday School. A large congregation was present and were well entertained by the school in songs, music and speeches. The collection amounted to \$12, which is given to destitute Sunday Schools in the Kentucky Conference.

DEATHS

Rev. E. B. Calk died at Decatur, Ill., on May 16. During his pastorate at the Christian church in Mayville, Ky., he preached in this city for a few days.

M. G. Brunner died at his home in Cleves, Ohio, Sunday, May 22. The deceased was a brother of J. H. Brunner, of this city, and was at one time engaged in business here.

Rev. James R. Nickell, aged about 71 years, died at his home near Rothwell in Menefee county, on Tuesday morning, May 24, '98, of paralysis. This was the second stroke, the first having occurred about three years ago, since which time he has been an invalid. He leaves a wife and several children. He has been a minister in the Christian church for fully a quarter century. He was a very zealous man and exerted a great influence for good.

A. B. DeShong, aged about 90 years died at his home near Camargo on Saturday, May 28, '98. Funeral service was held at residence on Sunday morning and burial was at Macbeth by the Masonic order. He leaves one son, J. B. DeShong, and four daughters, Mesdames David George, J. B. Stephens, Campbell Gibson and Sam Walker.

Joseph Suladik, who lives on Salt Well, near Flat Creek, was taken sick Sunday night, May 22, with pneumonia. He died on Saturday morning, May 28, 1898, at 5 o'clock. He was born in France about 70 years ago, came to America 50 years ago, coming direct to Kentucky. He spent a night at the Half-way House between Mt. Sterling and Winchester, a popular country hotel kept by Stag, Stephen Treadway. He was pleased to remain with the 'Squire and afterward married the 'Squire's daughter. He lived near Flat Creek for 30 years. He leaves two sons and three daughters. The funeral service was held at his home on Sunday morning by Rev. Brumby, of the Methodist church, and the burial was at the Treadway burying ground near Caswell's Prewitts. He was an honored citizen, hospitable, generous and agreeable, and his death will bring great loss to his neighbors, by whom he was loved.

Mrs. John Scott, of Frankfort (nee Brownlee Thompson of this city) died at her home on Saturday morning of pneumonia. Burial at Millersburg yesterday. Mrs. Scott was a most estimable lady. She had many warm friends in this city.

MARRIAGES

HALL-ANDERSON.

Miss Delta Anderson, daughter of Mrs. Mat Anderson of this county, and Mr. Samuel Hall, of Kansas City, Mo., will be married at the residence of the bride's mother Wednesday afternoon at 2:30.

Mt. Sterling High School.

The commencement exercises of the Mt. Sterling High School will be held on Thursday evening of next week. As in the past this entertainment will be of such a high standard that all patrons and friends will be proud of the institution and its efficient corps of teachers under the direction of Mrs. W. F. Hibler, who has for many years been at the head of the school.

Watson Lodge.

Watson Lodge No 32, I. O. O. F., has been on a boom since the beginning of the year. Since Jan. 1st, there have been more than forty initiations and in that time there has not been a single meeting without work and a large part of the time work that kept the Lodge open far into the night.

Musical Recital.

The reputation of Mrs. J. E. Grubbs as a music teacher is well known and the announcement that her music class will, on next Monday evening, give a recital at the opera house will insure a large audience. A most delightful entertainment is offered.

C. F. Keese looks like he fares amply every day. He sells meats, sweet, fresh and juicy. Go to him for meat.

Don't forget the Ladies' Aid Society of Somerset church will give a strawberry and ice cream supper at Side View Friday night.

THE SICK

Mrs. M. O. Cockrell is quite sick at her home on North Mayville street.

Mr. S. A. Duff, of Spencer, aged about 72, is seriously sick with inflammatory rheumatism.

Col. R. G. Stoner, of Bourbon, who has been seriously sick from a stroke of paralysis, is reported better.

Mr. James G. Lane, who has been very ill for some weeks at his home on high street, is, we are sorry to say, no better.

Since Friday afternoon Henry, the little son of Rev. G. C. Abbott, has been seriously sick. He began to improve Sunday evening and we hope he will soon be in usual health.

Mr. J. W. Hedden, of the Advocate, who has been seriously sick for the past month is, we are glad to say, very, materially better. His physicians think they can promise him a speedy recovery.

Color Came Back.

"Both my husband and myself have taken Hood's Sarsaparilla with great benefit and we value it very highly. Soon after we began taking it the color came back to our faces and our run down systems were built up. Hood's Sarsaparilla has done us wonderful good." Mrs. F. M. Shockley, Wickliffe, Ky.

Hood's Pills are the only pills to take with Hood's Sarsaparilla. Cure all liver ills.

A Chance for More Volunteers.

The President on Wednesday issued a second call for volunteers for the army. The call this time is for 75,000 men. Up to this writing there have been 118,000 of the 125,000 men included in the first call, mustered into the service.

Commencement Exercises of Mt. Sterling Collegiate School.

The Baccalaureate common will be preached on Sunday morning at the Methodist church by Rev. H. D. Clark.

Tuesday evening June 7 at 8 o'clock at the Baptist church, Rev. J. W. Mitchell will deliver a literary address before the Mt. Sterling Collegiate School. There will be special vocal and instrumental music.

On Wednesday evening, at the Opera House, the final literary and musical exercises will be given.

The evening performances will begin at 8 o'clock. A cordial invitation is hereby extended to all to attend these exercises.

SPAIN ENRAGED

Over the Friendly Attitude of Great Britain Toward the United States.

New York, May 27.—The burst of wrath against England throughout Spain in consequence of the speeches of Mr. Chamberlain and Lord Salisbury, suggesting the possibility of an Anglo-American alliance, was hard to describe, says the Madrid correspondent to The World. Every Spaniard, from the highest to the lowest, is quite as much exasperated against everything English now as he is against the Yankees. England is denounced as mean, perfidious, selfish, base and insouciant.

It seems not to have occurred to the Spaniards that the British minister may have had some motive, further-aided and deeper deluged in European and Asiatic questions than purely acquisitions of territory for coaling stations in the Philippines, the Canaries and the Bazaros.

These are supposed to be the only real objects of English statesmen. The marks of indignation against England in such articles, projects and has to be content with an active exchange of communication with the courts of Russia, Austria, Germany, France and Italy. Besides, if Spain could only give those powers assurance that she could keep the popular and military classes down the continental powers certainly would interpose as soon as there should be any serious reverse at Manila or the West India, and the fall of the Liberal Government should furnish an opportunity for a strong military and Conservative cabinet headed by Senor Silveira and General Camacho, the European power think, could be trusted to make terms of peace.

A decided change has taken place in the attitude of the continental governments. They have come to the conclusion that the best way to avert any understanding between England and the United States is to secure prompt action of the Spanish rule in the Philippines and Porto Rico, at least, even if Cuba becomes independent under an American protectorate. This explains why the powers are so anxious to hear of decisive naval operations in the West Indies.

It is a great leap from the old-fashioned doses of blue mass and nauseous physics to the pleasant little pills known as DeWitt's Little Early Bitters. They cure constipation, sick headache and biliousness.

FAST TRADE WITH CHINA.

Our Commerce Now Second Only to Great Britain.

Washington, May 26.—Mr. Hugh O'Brien, Second Secretary of the British Embassy here, has made a report to the British Foreign Office on the extent of commerce between the United States and China. The report is opportune to the recent movements of European powers, particularly Great Britain, Germany and Russia, toward securing territory and commercial advantages in China. Mr. O'Brien does not deal with the political phases which have made the Chinese question a foremost topic in European discussion, but his report tends to bring out the fact that the United States has such large commercial interests in China that she is no less interested than the European powers in the advancements made upon China. The report shows that the present volume of United States trade in China represents more than one-seventh of the entire trade of the empire. It is 50 per cent. greater than the trade of Germany, with China, and comes next to the trade of Great Britain, that being the first in commercial importance.

The famous shipbuilders, Cramps, have set a splendid example in increasing, without waiting for request, the wages of their employees by one-fourth.

AN OPEN LETTER TO MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "CASTORIA," the same that has borne and does now bear *Cast H. Fletcher* on every the fac-simile signature of *Cast H. Fletcher* wrapper. This is the original "CASTORIA" which has been used in the homes of the Mothers of America for over thirty years.

LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought on the and has the signature of *Cast H. Fletcher* wrapper. No one has authority from me to use my name except The Centaur Company, of which Chas. H. Fletcher is President, March 24, 1898.

Do Not Be Deceived.

Do not endanger the life of your child by accepting a cheap substitute which some druggist may offer you (because he makes a few more pennies on it), the ingredients of which even he does not know.
